GUEST CAM • REC | SAMPLE GUIDE

Lights, camera, *you're on.*

"You're not a professional filmmaker. You're just someone who loves the happy couple. That's exactly the point."

01 · WHAT TO FILM

Your filming prompts

- Record a message for the couple. Funny, soppy or both.
- Catch reactions: watch the guests, not just the couple.
- Get on the dance floor. Brave the chaos.
- Film the little things: hands, shoes, the cake, the view.
- Ask someone their best piece of marriage advice.

02 · STEADY HANDS

Keep it (mostly) steady

- Hold the camera with two hands and tuck your elbows in.
- Count to ten before you stop recording.
- Walk slowly. Moonwalking optional.
- Use the flip-out screen so you're not guessing.

03 · GOOD AUDIO

Help us hear it

- Get close to whoever's talking. The mic loves proximity.
- Move away from speakers and the bar when recording messages.
- Say who's speaking at the start. Future you will thank you.

04 · BATTERY

Battery awareness

- There are 3 charged batteries for up to 8 hours of filming in total.
- Swap batteries during a quiet moment, like dinner.
- Stop recording when nothing's happening. Save it for the good bits.

05 · BE KIND

Film with kindness

- If someone says no to being filmed, respect it, no questions asked.
- Ask before filming children, and check with their grown-ups.
- Keep the camera down during the moments the couple asked to keep private.

REMEMBER

Press record.
Press stop.
Enjoy the party.

The wobbly, giggly, real bits are what make the film. Pass the camera on when you're done.
